D.5. RFP for Renewable Capacity and Energy

Rationale:

As directed in January, we have prepared a proposed RFP for Capacity and Energy from Renewable Resources. We plan to discuss the RFP and for the Board to consider a related resolution.

The Resolutions provide for:

Directing nFront Consulting to:

Publish a request for proposals to provide Renewable Capacity and Energy to KyMEA.

Review responses to the RFP and develop recommendations to the Board concerning which are reasonably susceptible of being selected for award.

Finding that the specifications cannot be made sufficiently specific to permit award on the basis of either the lowest bid price or the lowest evaluated bid price due to the Agency's need for nonstandard services.

Finding that one or more contracts for Renewable Capacity and Energy should be procured through competitive negotiation pursuant to KRS 45A.370.

Approving the form of said notice, RFP, and related advertisement.

Authorizing the KyMEA Chairman to take such action on behalf of KyMEA as he deems appropriate to facilitate and expedite the procurement process, subject to subsequent ratification by the KyMEA Board.
